

PRODUCT CERTIFICATE

For: anti-CD37 antibody

Catalog Number:	069-A
Product Description:	anti-CD37 IgG2b (monoclonal) Produced against a B cell line.
Specificity:	CD37 antigen (human), 40-52 kDa glycoprotein.
Origin:	Mouse
Clone:	IPO-24
Purity:	Protein A purified.
Buffer/Composition:	1 X PBS pH 7.2
Concentration:	~ 1 mg/ml; bulk amount available upon request.
Recommended Dilution:	For ELISA: 1:1000
Storage:	Long Term: -80°C Short Term: 4°C
Shipping:	Wet ice
Application:	Immunoprecipitation, ELISA, Paraffin Sections, Frozen Sections.

The products are for laboratory research use or further manufacturing only and should not be used for human therapeutic or diagnostic applications.
